The Infallible Seducer: The ultimate pickup line

What do I say to
this loser?

Will your answer to this question be the same
as your answer to the next question?

Will you sleep with me?

The Road to Immortality: Is it really this easy?

I will never make any
false statements

I will repeat this sentence tomorrow

Are there undefinable words?

Autological	Heterological
short	long
English	German
polysyllabic	monosyllabic

Heterological?

Talking about things that we cannot talk about

- The smallest number not describable in fewer than eleven words

483720583764239438974389534895348959384754350834958345345
435351358356734545938748593748958743810498248023588345601....

Are uninteresting numbers interesting?

- 1 is definitely an interesting number
- 2 is interesting since it is the first even number
-
- Is 96846398602 interesting?

More, More, and More: Can it ever stop?

1 grain of sand

10,000 grains of sand
